

# Green Thumbs Galore

Come down and cultivate your inner green thumb at the Hub's edible community garden.

## About the program

Be part of this exciting initiative at the Hub's garden courtyard area. Partake in developing and maintaining a seasonal garden, and transform this space into an edible, community garden.

This volunteer program runs weekly where participants will not only tend to the garden, but also have a space to share skills and knowledge, and together, learn how to grow and harvest various herbs, fruits, and vegetables.

## Who can attend?

All ages welcome, no experience or bookings are required. Just come ready for some hands-on time in our beautiful outdoor space, and have a cuppa while gardening with fellow community members.

## When:

Thursdays 1pm to 3pm.

## Cost:

Gold coin donation.

We look forward to gardening with you all soon!
